Summary

Flutter Developer with hands–on experience in creating cross–platform mobile apps using Dart and the Flutter framework Seeking an opportunity as a Flutter Developer with an expert team to help advance my career and professional growth.

Experiences

Engaz Technology (Mar 2025 – Present) – (Remote)

- Contribute to designing and developing **10+ cross–platform mobile applications**.
- worked with many clients from different countries such as : Saudi Arabia- jordan - Libia - Iraq - Egypt.

Flutter developer at A'mal Technology (Feb 2023 – Jan 2024) – (Hybrid)

- Contribute to designing and developing **2+ cross–platform mobile applications**.
- Collaborated in an Agile environment with cross-functional teams, including design, backend, and testing teams.

Flutter Developer Freelancer (Sep 2022 – Aug 2023)

- Successfully completed multiple freelance projects.
- Collaborated with clients to understand project requirements.

Orange Digital Center – Flutter internship (Aug 2022) – (Cairo)

projects

SALIS ERP SYSTEM (Salis portable admin and Van sales apps) Salis System

- **Objective:** Contributed to the development of 2 mobile applications for the **Sali ERP system with 25000+ user**, currently operational in **Saudi Arabia**.
- **Technologies:** Flutter – Dart– RESTful APIs – Firebase – Push Notifications– local auth (finger print)– web socket – google maps – In App Reporting (flutter chart) – animations – file handling.
- **Project Highlights: Sales & Purchases Management – Offline Mode** (automatic synchronization upon reconnection) – **Role–Based Access Control (RBAC) – MVVM Architecture**

- **Key Contributions:**
  - Employee Tracking System (Google Maps Integration): Built a tracking system with **Google Maps** to monitor **employees' real–time locations**. Each employee has **an assigned work area** and the system pauses if they leave this zone.
  - Developed the next modules: In–App Reporting & Analytics, Bonds Management, Missions Tracking and Attendance Management.
  - Additional Contributions: Participated in modifying and enhancing other parts of the application **including invoice, orders, and authentication modules.**

Deals – Smart Transportation & Delivery System

- **Deals** Google Play
- **Deals Shop |** ديلز شوب Google Play App Store
- **Deals Captain** Google Play
- Developed a unified platform combining ride-hailing and on-demand delivery in one system.
- Built user flows for requesting trips, ordering products, and managing a shopping cart.
- Designed shop management features: product catalog, pricing, offers, and real-time order tracking.
- Implemented dual driver modes (ride or delivery), enhancing flexibility and service coverage.

SawaGo – Ride-Hailing System

- **SawaGo |** سوا جو Google Play
- **SawaGo Captain |** سوا جو كابتن Google Play App Store
- Developed a modern ride-hailing solution connecting passengers with trusted drivers.
- Built ride request and live trip tracking features with real-time map updates.

Aqaraty – Smart Property Management System

- **Aqaraty | عقاراتي** Google Play App Store
- **Aqaraty Employee | عقاراتي موظف** Google Play
- Developed a complete property management solution for owners and employees.
- Built tenant and apartment management features, including rent tracking, history, and payment updates.

Seen – E-Commerce & Delivery Ecosystem

- **Seen App** Google Play App Store
- **Seen Merchant |** سين تاجر Google Play App Store
- **Seen Celebrity |** سين مشهور Google Play App Store
- **Seen Delivery**
- Developed a complete e-commerce and logistics platform serving Iraq and the wider region.
- Created influencer (celebrity) modules to promote products and track sales/earnings.

Hadiya – AI-Powered Gift Delivery System

- **Hadiya –** هديه Google Play App Store
- **Hadiya Shop |** متجر هديه Google Play App Store
- **Hadiya Driver |** هديه سائق Google Play

- Built gift ordering flow using **AI-assisted chat** for personalized suggestions.
- Developed **order creation and tracking** in the User App.

Iraqi Plus – Business Offers & Deals Platform

- **Iraq Plus** Google Play App Store
- **Iraq Plus Co - عراق بلس شركة** Google Play App Store
- Implemented interactive **reels-style video display** for companies' promotional content in the User App.
- Integrated **QR code reader** to allow companies to add promotional deals.

Amaly – Digital Healthcare Platform

- **Amaly** Google Play
- **Amaly Doctor** Google Play
- Implemented **App Linking to enable deep linking** for doctor profiles, posts, groups, and pages.
- Enhanced content sharing and navigation experience across both apps.

Aghseli – Car Wash Delivery Apps

- **Aghseli I اغسلي** Google Play App Store
- **Aghseli Captain I اغسلي سائق** Google Play App Store
- Developed product listing, cart, and order creation features in the User App.
- Built order reception and approval flow in the Driver App, including handling product preparation for delivery.

Otjie – Laundry and Ironing Delivery System

- **Otjie - اوتجي** Google Play App Store
- **Otjie Ironer - أوتجي مكوجي** Google Play App Store
- **Otjie Captain - أوتجي كابتن** Google Play App Store

Skills

Flutter:

Dart – state management solutions (Cubit – Getx – Provider) – retrofit (get it and code generators) – REST APIs and third–party libraries Integration – Google Maps – live location – Firebase –Deep Linking – Responsive and adaptive UI – Localization – Notifications (push – local) – Storage (file system – Shared preference – SQLite – Secure Storage – Hive) – local auth – web socket–In App Reporting (flutter charts) – animations

General Concept:

OOP – solid principles – Agile Methodologies – Git & GitHub – MVC – MVVM – Clean reusable code

Personal Skills

- Experience in the app publishing process for the **Play Store And App Store.**
- Collaboration, Teamwork, Attention to Details and Time Management.
- Strong problem-solving skills for tackling technical challenges and delivering robust solutions.
- Committed to continuous learning and staying up-to-date with the latest industry trends.

Education

BSc in Computer Science, Helwan University (2019 – 2023) – (Cairo)

Department: Computer Science

Grade: very good

Personal Information

Military status: Completed
